Oakwood Knolls At Cross Lk. Has Grand Opening This Week

Three Hundred Lots of Village's Newest Subdn. Go on Sale

Antioch's largest and newest subdivision, Oakwood Knolls, will celebrate its grand opening this week. Situated on the former Dr. W. H. Kenner farm on State Line rd. and Cross Lake, part of which has been retained by Dr. Kenner, the new subdivision of the Crown Realty Co., Chicago, is expected to see a rapid growth.

Houses there which will be constructed by the Cross Lake Realty Co. if desired, will be both of the year-round and the summer cottage varieties. The summer homes will be constructed so that they can be converted into year-round homes if desired.

It is expected that 300 homes will be built yearly.

All streets are curved so that speeding will be checked and the streets made safe for children.

Oakwood Knolls, as a part of Antioch, has running water, electricity, telephones, and macadam streets. It has advantages of Antioch's shopping district, schools and churches. Cross Lake is a spring-fed lake, has a sand bottom and is conducive to good private beaches.

The developers of the subdivision have since 1930 created nine developments in the Chicago area and built nearly 3,000 homes. The summer homes here will be of the ranch type.

Sequoits Beat Bisons, Lose to Grayslake to Remain in Third Place

Antioch High through the home run blasts of Phil Vos and Larry Hostetter defeated the Bensenville Bisons here Saturday afternoon 8 to 4, after losing to Grayslake Friday 11 to 3.

The Sequoits are in third place in the Northwest conference while their conquerors, Grayslake, is firmly seated at the top.

Vos pitched his first league triumph, holding the Bisons scoreless for five of the seven innings and getting into serious trouble only once. In the fifth frame the visitors scored three of their four runs and added another later. Vos fanned nine and issued but one pass. "Sirotski got three of the six hits off him.

Antioch scored twice in the first inning on hits by Tom McGreal and Mark Verke, the latter a double, and added another in the third when Jack Lawrence walked, stole second and third and went home on an infield out.

Two more scores were made in the third on Vos' homer into right center, and the final three runs were made in the sixth on Hostetter's circuit smash with two on base.

Seven errors while getting but two hits off Jay Hook were the undoing of the Sequoits at Grayslake Friday.

Mark Verke gave but five costly passes that coupled with the errors practically gave the game to the Rams.

The game with Palatine here Tuesday was rained out, and the next game will be with Grant there tomorrow if weather permits.

Bellrose Tells Lions Waterfowl Need Defuges

"Game Refuges are needed to preserve our migratory waterfowl and especially in the Chain of Lakes area," Frank Bellrose, of the Illinois Natural History Survey told members of the Lions club at Smart's Country House Monday evening.

The club inducted two new members, Robert Jensen, jeweler, and Walter Curtis, restaurant owner, according to President Ted Larson.

Chicago Radio Star to Sing with Antioch Municipal Band May 11

Dolph Hewitt, singing star of Radio Station WLS, Chicago, will be guest soloist at the Community Band concert in the high school auditorium Tuesday evening, May 11.

Announcement of this added attraction was made by Director Louis Chenette, who said that the band is preparing a varied program of both popular and classical numbers.

"From the interest and support already being given and shown by the various organizations of the village I'm sure the event will go over big," said Director Chenette.

The community band grew out of an adult evening program at Antioch Township High school. So interested did the players become in the organization that they re-enrolled for a second course and are now staging this concert to raise money to pay the costs of a summer program of public concerts in Antioch.

"The band will be an opportunity for high school students with talent to carry over into adult life," said Chenette. "At the same time it will provide a cultural advantage to the community."

W. J. Murphy, Republican candidate for state representative will serve as master of ceremonies at the concert.

W. V. Lahti and William Dow have been placed in charge of tickets which will be placed on sale at Card's, the Antioch News, and W. V. Lahti's Oil Co. office.

Assessor Calls For Immediate Return Of Personal Tax Forms

Believes Number of Items Will Exceed 2,200 This Year

Personal property forms have been sent out for Antioch township by Assessor J. P. Miller and are to be returned by Saturday.

Miller said that last year 1,440 items were recorded in contrast to 760 the previous year and that this year he expects the number to reach 2,200, a gain of about 800.

"If those who receive these forms and send them in on time it will make it unnecessary for the assessor or his deputies to call on them and thereby effect an economy," said Assessor Miller.

Miller said that the personal tax goes into the general fund and that 75 per cent of this fund is used for schools, which should be supported.

The assessor is trying for a goal of 90 per cent this year. There is always some loss by those who move from the township, he said. Names of those who become delinquent are turned over to the Justice of Peace for collection.

Miller said that a larger number of Chicagoans who own resort property here are returning their forms this year.

Deputies will begin their calling next week.

Look, Listen and Live

The railroads of the United States have long carried on a safety and accident prevention campaign second to none. That it has borne fruit is evidenced by the fact that in 1952 there was not a single passenger death as the result of a train mishap.

Probably no single safety communication ever had more appeal than the letter written by a Union Pacific fireman, in December, 1947, entitled "One Second from Eternity." It was addressed to a youth and his girl friend who escaped by a split second from being wiped out by a fast passenger train as their automobile crossed the track in front of it. Said the fireman, "It was so close that I, in the cab, could see the young girl throw up her hands in front of her face and cringe up against you (the boy) in stark terror."

This letter was one of those lucky breaks which dramatize the cause of safety. It was reprinted thousands of times, and in many forms. Following it, a sound-color film, "Look, Listen and Live," put out by the Union Pacific in 1948, has been viewed by literally millions of persons, through the cooperation of state highway patrols and public schools.

Every American railroad makes accident prevention a primary concern. The result is that our railroads are the safest agency of mass transportation that exists.

Wrong Time for Tax Boost

Many compelling arguments have been advanced in support of the proposal made by President Eisenhower that the projected automatic increase in the social security tax rate, now scheduled for the first of the year, be deferred and that the tax be frozen at the present rate for the time being.

One of the best of those arguments lies in the fact that there is virtually unanimity of opinion that the law is basically shaky in many respects, and must be overhauled.

A House subcommittee is now making a thorough study of the system, and will report to Congress. A number of other studies are also in progress. Until these are completed, and Congress has had a chance to act, the pending tax increase, which would cost employees and employers \$1,500,000,000 a year, should be abandoned.

Would You Like an Oil Well?

"I wish I had an oil well" is a common expression. It's only human to dream of an ideal life, financially speaking, in which all one has to do is to sit back and bank the endless stream of dollars that flow from a gusher.

But finding an oil well is an extremely expensive and risky business.

First of all, you'd need a drilling rig costing \$300,000 or more. You'd also need a lot more high-priced equipment, including steel casing, scores of bits and reamers, powerful motors, thousands of sacks of cement, and so on down a long list. And you'd have to be prepared to meet the paychecks and other expenses of about 125 well-paid technicians and craftsmen, including geologists, exploration crews, drillers, engineers, etc., etc.

Supposing all this was possible in your case, you'd be ready to sink your 10,000 foot hole, a depth which is by no means unusual in oil-drilling nowadays—many wells are much deeper. But your troubles wouldn't be over. For about 80 per cent of all the windcat wells drilled in this country turn out to be dry and useless holes. The money they cost is sunk beyond recovery. And many of the remaining 20 per cent produce only small quantities of oil, with consequent small rewards.

The oil industry and the oilmen are taking these long-shot gambles every day. And they're taking them for only one reason—the hope of profit if they succeed. There's a perfect example of how the much criticized profit-motive serves a nation.

Don't Let These Principles Be Destroyed

Regardless of what changes may or may not be made in the Taft-Hartley law, the national interest demands that two of its provisions be retained unweakened.

One provides that no worker can be deprived of the right to work for any reason other than non-payment of union dues. The other permits the states to enact strong right-to-work laws. A lengthy list of states have done so.

Certain labor bosses want these articles totally repealed. Should this happen, the way will be open for a ruthless labor dictatorship.

The Low Down From Hickory Grove

My new 1954 crystal ball—it don't look so bad in same. Since 1776 there have been lulls in business, sags in prices, and then the sun comes up again. And after it is up a spell we forget all about the fool things we fell for and proceed to get careless and we do 'em all over again in their new regalia. The new regalia is what fools us. We never graduate completely out of the sucker class—the side show man with his 3 shells and easy money appeal, intrigues us. If we watch our step in '54 we won't stand by motionless, as they start fiddlin' with our national labor laws. The right of each State to make its own kind of "right-to-work" law is threatened. Starting in January every voter, if his little Junior is to have a chance to think, perspire and prosper when he grows up, needs to pick up his ball point, grit his teeth. Make it 5 letters—the Big Chief first, then vice-president Dick, 2 Senators, one Congressman.

Don't look back a year hence and deduct you been a sucker again. And floors and ceilings—about Govt. edging into business ventures—about all the fool things that were taboo in 1776. 1954 can be great—if we buckle on our shootin' irons—and early.

Yours with the low down,

JO SERRA

Half-ton beauty with a two-ton punch

THE new '54 GMC light-duty shown above wasn't born just to win beauty contests.

Sure, its sleek lines, full-width grille and panoramic windshield are handsomely un-trucklike.

There's the same dashing air about the inside, too. Three-passenger roominess. Two-tone color treatment. Harmonizing, supple-as-leather upholstery. Smart instrument panel, with dials clustered for instant visibility through a tri-spoke wheel.

But mister—take another look!

A burly, brawny brute of an engine—a real truck engine—makes you think of a Miss America who also can bend horseshoes. One hundred and twenty-five horsepower guarantees that this beauty can heft a top load with more ease and dash than you've ever seen before.

That's more power than some makers pack into their two-ton models. That's more usable power

than in any other 6-cylinder engine in its class!

And look at that wide, deep box. It holds at least 8 cubic feet more than even the roomy '53 model. That tail gate isn't only grain-tight—it's sand-tight.

Finally, to top it off, it offers Truck Hydra-Matic Drive*—the supreme automatic shift that saves you, saves your cash, saves your time.

(Note to those who want the look of luxury in a truck: there's a DE LUXE model at extra cost, with chrome grille and trim, two-tone paint, curved rear corner windows—the works!)

Come in and drive this great GMC. It will do all the selling—by itself.

*Truck Hydra-Matic Drive standard on some models, optional at extra cost on others.

Louise Erickson Becomes Bride Of Richard Radke

In services at 8 p. m. Saturday, April seventeenth at Millburn Congregational church in Millburn, Miss Louise Erickson, daughter of Mr. and Mrs. Paul Erickson exchanged vows with Richard Radke, son of Mr. and Mrs. Maurice Radke of Antioch. The Rev. L. H. Messersmith officiated at the double ring ceremony.

The bride given away by her father, chose for her wedding a gown of chantilly lace and nylon over ice blue satin with winged collar neckline accented by a single strand of pearls, a gift of the groom. Her French illusion fingertip veil was held by a crown of seed pearls. She carried a white bible with white orchids and stephanotis. Mrs. Harry Stewart served as matron of honor. Her gown was of cattilian blue tulle with a crown of net, and her flowers were pink carnations. Mesdames Paul Deack and Irving Buchta served as bridesmaids wearing gowns of Romance blue net over satin, their flowers were dark pink carnations.

Irving Buchta acted as best man. The ushers were Harry Stewart and Donald Spaulding.

Miss Nancy Swenson sang, "With All My Love I Do Endow" and "The Lord's Prayer," accompanied at the organ by Mrs. Kenneth Young. Mrs. Erickson, mother of the bride, wore a gown of navy blue crepe with pink accessories. Her flowers were pink carnations. Mrs. Radke, mother of the bridegroom wore a gown of powder blue crepe with matching hat. Her flowers were white carnations.

A reception was held following the service at the Millburn church with the bride's sister, Mrs. L. Yopp, assisted by the bride's sister-in-law, Mrs. W. Erickson serving as hostesses.

The newlyweds left following the reception for a wedding trip through the western states.

Both the bride and groom are graduates of the Antioch Township high school. The groom is serving in the U. S. navy.

Mr. and Mrs. William Hanneman of Burlington, Wis., extend an invitation to all of their friends and neighbors to attend the celebration of their golden wedding anniversary Sunday afternoon, May 2 at the Masonic Temple in Burlington.

Community Party Was Successful Although Weather Cut Crowd

Bad weather and conflicting activities cut down the attendance at the community party at the high school Saturday night, but the party was a success, according to the sponsors, the Student Council and Board of Education.

Those who attended spent the evening enjoyably in dancing, playing cards, and recreational games.

Those in the kitchen came in for much praise because of the delicious food they served.

Plans are being made to have more parties of this nature to coordinate closely the working relationship of the school and community.
